

The Soil Moisture Sensor that Speaks VOLUMES

## Aquaflex Software

The AQUAFLEX PC Software allows you to set up your AQUAFLEX System and display your soil moisture information quickly and easily.

### A typical AQUAFLEX graph

Display up to 8 traces on one graph

### Key Features

- S Current and historical soil moisture data available at your fingertips
- S 'One click' calibration option – AQUAFLEX calibrates automatically when you enter a soil type
- S Soil temperature can be displayed alongside soil moisture
- S Easy data collection from AQUAFLEX Loggers or Links
- S Moisture set-points allow you to clearly see important points e.g. Refill, Field Capacity, etc.
- S Logger battery status is displayed each time data is collected
- S Sample intervals can be set from 10 minutes to 6 hours
- S Data can be easily exported to spreadsheets for further analysis

**Spatial Averaging, Precision and Robustness**  
- three key attributes that put AQUAFLEX in a league of its own! -
